Join Us as a Corporate Partner to Save Lives

The Isaiah Marshall Foundation is dedicated to improving community health by increasing access to early detection and preventive healthcare. As a prostate cancer survivor, Isaiah Marshall knows firsthand how screenings can save lives. Our goal is to remove barriers to healthcare and provide education and resources to those who need them most.

A Life Saved by Early Detection: Isaiah Marshall's Story

Early detection saved my life. Like many men, I did not prioritize routine health screenings. I was busy, and my health was not a priority - until a simple screening through Baton Rouge Primary Care Collaborative (BRPCC) revealed an issue that could have been life-threatening if undetected.

Because of early detection, I was able to take immediate action, receive treatment, and continue living a full, healthy life. Now, my mission is to help others take control of their health through education and preventive screenings.
